

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

*Vessels which are not allowed to enter the harbor, but are allowed to communicate with quarantine establishments.*

4. Infected vessels.
5. Vessels with pilgrims from the East, when not carrying a recognized medical officer.
6. Vessels from infected places, when not carrying a recognized medical officer.

*Vessels allowed to load in quarantine.*

7. Vessels arriving at Malta without a clean bill of health.
8. Infected vessels when carrying a recognized medical officer and not having on board an actual case of the disease mentioned in paragraph 3 on board.
9. Vessels from infected places not having on board an actual case of the diseases mentioned in paragraph 3 when arriving within ten days from departure.
10. Vessels with pilgrims from the East when carrying a recognized medical officer.

*Vessels from infected places admitted to pratique.*

11. Vessels without a clean bill of health, or from infected places, will be admitted to pratique after ten days from date of departure.

*Medical inspection.*

12. All vessels and passengers on arrival are subject to medical inspection.

*Passengers.*

13. Passengers, before landing, must declare on oath before a marine police officer that they have not been in or have not communicated with an infected place within the last ten days. Otherwise they shall remain in quarantine to complete ten days from departure.

14. Passengers arriving on vessels without a clean bill of health shall complete ten days' quarantine from departure.

15. Passengers arriving from infected places after ten days from date of departure are allowed to land in free pratique after strict medical inspection and thorough disinfection of their persons, effects, and luggage, if the inspecting medical officer is satisfied that they are in good health.

16. Passengers not otherwise provided for are subjected to the restrictions applicable to the vessels on which they arrive.

17. When twenty days have elapsed from the last case of plague, cholera, or other disease against which restrictions have been in force with regard to a country or place declared to be an infected place, a notice will be issued by the collector of customs to the effect that the place or port is no longer to be dealt with as infected.

N. B.—Vessels that carry a doctor and pass through the Suez Canal without taking on board either cargo or passengers will not be considered infected by contact with canal pilots taken on board from a disinfecting station or by coaling and provisioning at Port Said or Suez under restrictions approved by the chief Government medical officer.

The word "passengers," as used in this notice, includes the crew.

By command,

E. M. MEREWETHER,

*Lieutenant-Governor and Chief Secretary to Government.*

PALACE, VALLETTA, December 6, 1902.

MEXICO.

*Plague at Ensenada and Mazatlan.*

Dr. Liceaga, of the Mexican superior board of health, declares, December 31, 1902, the presence of plague at Ensenada and Mazatlan.
